Client Reviews:

*As an experienced social worker of 26 years, I can say that my mother remains safe and happy in her home receiving committed and dedicated care that goes way beyond what most would consider typical home care. Thank You America's Nursing for your dedication and hard work."

*I have been using America's Nursing for many years for the care of my mother. They have been consistently reliable and caring. I feel safe leaving mother in their care. They send a nurse in to check on her health, medications and doctors' appointments. When there is any kind of issue, they are quick to resolve it effectively. I would recommend America's Nursing for anyone seeking care for themselves or a loved one." Emilila D.

*I can't say enough good things about America's Nursing. I have been their client for almost two decades when I was referred to them by the Dept. of Medical Assistant Services, Prior to working with them, I had attempted working with several other agencies and had had only negative experiences. America's Nursing has been amazing. I have been provided reliable care every day of the week for almost 20 years. The aides are well-trained, polite and caring. In the rare event that I encountered a problem, the Director and her team corrected it immediately. I have a lot to compare to, but America's Nursing is simply the best." Shohreh S.

*After five years of having my mother as a client with America's Nursing, I can say that I am so happy I found them. They found the perfect aide for my mother, working with me through all the details my mother has. The team is so friendly and helpful that I feel protected by them in any case or need that my mother has. I honestly and with no hesitation recommend America's Nursing as an agency that will truly care for your beloved family member." Emma A.
